

18-e-Clinical posting day wise for each clinical dept posting for Monday to Saturday during the specified weeks of posting as per GMER including student doctor method of learning

Weeks	SL	CM	ENT		Ophthal	Medicine	Surgery	OBG	Pediatrics	Ortho	Psychiatry	Radiology	Dermat	Anaesthesia	Dental	
1	1	Introduction to Community Health Program. Briefing on procedures for students to follow during the visit to Old age home Foundry and home for differently abled (Cheshire home)	Demonstrate the correct technique to hold visualise and assess the mobility of the tympanic membrane and its mobility and interpret and diagrammatically represent the findings (EN4.4)	OP3.1	Elicit document and present an appropriate history in a patient presenting with a "red eye" including congestion, discharge, pain	CVS:SYSTEM examinatio im 1.11- 1.16, 8.10 & 8.11	SU5.2 Elicit, document and present a history in a patient presenting with wound	History, clinical examination & investigations in obs. OGB.8	Assessment of child;FTT-History,examination (2.2)	History taking in Orthopaedics	History & mental status examination (PS 3.3, 3.5)	Radiology introduction (RD 1.2)	Identify and differentiate vitiligo from other hypopigmented lesions. DR 2.1	Pre operative evaluation AS 3.1,3.2,3.3	Discuss the role of dental caries as a focus of sepsis. DE1.4 skill lab identify dental caries 5.SH (50mins)	
	2	Visit to PSG Foundry- To learn about the occupational health and the preventive measures in a foundry (CM 11.2,11.3).	Elicit document and present a correct history, demonstrate and describe the clinical features, choose the correct investigations and describe the principles of management of OME(EN4.5)	OP3.2	Demonstrate document and present the correct method of examination of vision, pupil abnormality, ciliary tenderness	CVS: Acute Rheumatic Fever IM1.1, 1.3	SU18.3 Elicit, document and present .Demonstrate the clinical examination of surgical patient including swelling and order relevant investigation for diagnosis. Describe and discuss appropriate treatment plan	history taking , investigations and interpretation of investigations in a case of iron deficiency Anemia OG12.2	Assessment of child;short stature H&E (2.5)	An Approach to knee pain Clinical examination and special tests	Schizophrenia (PS 5.2)	Radiation Hazards and Radiation Protection (RD 1.1, RD 1.12)	Demonstrate the grapple test DR 3.2	Premedication AS 3.4, 3.5,3.6	Counsel patients on the importance of restoring missing teeth/tissues with respect to the benefits on oral and systemic health DE2.5 skill lab identify complete complement of teeth and identify missing teeth 5.SH (50mins).	
	3	Visit to Old age home - To learn about the Geriatric health and the facilities in an Old Age Home (CM 12.1,12.2,12.3)	Elicit document and present a correct history, demonstrate and describe the clinical features, choose the correct investigations and describe the principles of management of Discharging ear. (EN4.6)	OP1.3	Demonstrate the steps in performing the visual acuity assessment for distance vision, near vision, colour vision, the pin hole test and the menace and blink reflexes	CVS: Rheumatic Heart disease (MS/MR) IM1.9,1.20,1.27	SU22.3 Demonstrate and document the correct clinical examination of thyroid swellings and discuss the differential diagnosis and their management	history taking , investigations and interpretation of investigations in a case of PH OG12.1	Adolescent health check-up- SMR,growth,systemic exam (6.9)	An Approach to Shoulder and Elbow Clinical examination and Special tests	Alcohol & Other substance use disorders (PS 4.2)	X-ray imaging (RD 1.3, RD 1.5, RD 1.6, RD 1.7, RD 1.10)	Identify and distinguish lichen planus from other causes DR 4.1	Monitoring in anaesthesia AS 6.1	Identify malocclusion DE3.3 skill lab identify malocclusion 5.SH (50mins)	
	4	Visit to Cheshire home- to learn about common mental health problems and programs for mental health(CM 15.1,15.2,15.3).	Elicit document and present a correct history demonstrate and describe the clinical features, choose the correct investigations and describe the principles of management of CSOM (EN4.7)	OP2.3	Demonstrate under supervision clinical procedures performed in the lid including: bells phenomenon, assessment of entropion/ ectropion, perform the regurgitation test of lacrimal sac. massage technique in cong. dacryocystitis, and trichiatric cilia removal by epilation	CVS:Rheumatic Heart disease (AS/AR) IM1.9,1.20,1.27	SU20.1 Elicit, document and present.Demonstrate the correct technique to examine the patient with oropharyngeal cancer	Skill Lab - Management of PPH (OG 13.1)	Development assessment and interpretation (1.7)	SKILL SET PART 1 -POP APPLICATION UPPER LIMB	Depression (PS 6.2)	Ultrasoundogram (RD 1.4, RD 1.5, RD 1.6, RD 1.7, RD 1.10)	Identify and differentiate based on the clinical features non-syphilitic sexually transmitted diseases DR 10.7	Basic anaesthetic equipments AS 4.1, 4.2 4.3,4.4,4.5	Identify potential pre-cancerous/cancerous lesions DE3.3 skill lab identify potential pre-cancerous/cancerous lesions 5.SH (50mins)	
	5	Visit to vaccination centre- UHTC (CM10.5)	Elicit document and present a correct history, demonstrate and describe the clinical features, choose the correct investigations and describe the principles of management of squamous type of CSOM (EN4.8)	OP3.9	Demonstrate the correct technique of instillation of eye drops in a simulated environment	CVS: Ischemic Heart disease (ACS) IM2.1,2.2,2.5 -2.7, 2.14,2.15	SU25.5 Elicit, document and present.Demonstrate the correct technique to palpate the breast for breast swelling in a mannequin or equivalent	clinical examination and investigations in a case of Breech presentation OG14.4	Assess children <2years using IMNCI guidelines and Stratify 16.2	Foot & Ankle Examination	Bipolar disorders (PS 7.2)	CT scan (RD 1.3, RD 1.5, RD 1.6, RD 1.7, RD 1.10)	Calculate the body surface area of involvement of vesiculobullous lesions DR 13.3	Conduct of General Anaesthesia AS 4.4,4.5,4.6,4.7	Discuss the role of periodontal disease as a focus of sepsis DE5.4 skill lab identify periodontal disease 5.SH (50mins).	
	6	Formative assessment- reflections and MCQs	Demonstrate the correct technique for syringing wax from the ear in a simulated environment (EN4.9) (SKILLS)		OP3.1, OP3.2, OP1.3, OP2.3, OP3.9 - Vision, Distant Vision with Pin hole and Near Vision, Menace Reflex, Blink Reflex	CVS: Heart Failure IM 1.4-1.6	SU27.2 Elicit, document and present .Demonstrate the correct examination of the vascular system and describe the investigation of vascular disease	history taking and clinical examination of Prev LSCS case OG15.1	Revision,Counselling a parent with failing to thrive child (2.3)AETCOM	Nerve Injuries - Diagnosis and Clinical Tests	Anxiety disorders & stress related Disorders (PS 8.2, PS 9.2)		Identify atopic dermatitis and manage PE 31.4	Spinal anaesthesia AS 5.1,5.2,5.5 Regional nerve blocks AS 5.3,5.4,5.6 Patient positioning and anaesthesia AS 10.1,10.2 Anaesthetic complications AS 6.1,6.2, 6.3 Post anaesthesia care unit AS 6.3	Counsel patients with respect to oral hygiene,diet and the direct bearing on systemic health DE1.5	
2	7	Introduction to epidemiology n care of special groups	Observe and describe the indications for and steps involved in myringotomy and myringoplasty(EN4.10)	OP3.6	Evaluation of common conjunctival lesions and pterygium, bitot's spot, conjunctivitis	RS: System examination, Differential Diagnosis IM3.4-3.6	SU27.8 Elicit, document and present.Demonstrate the correct examination of the lymphatic system	History clinical examination & investigations in gyn OG35.1	Assess children >2 to 5 years using IMNCI guidelines and Stratify 16.3	Approach to Infected Case	Organic Psychiatry (PS 3.9)	MRI (RD 1.3, RD 1.5, RD 1.6, RD 1.7, RD 1.10)	Identify and distinguish angioedema from other lesions. DR 14.4			
	8	Clinicosocial case (CSC) discussion- type 2 DM CSC- SHT (CM8.2,8.3)	Enumerate the indications, describe the steps and observe a Mastoidectomy (EN4.11)	OP6.6	Identify and demonstrate the clinical features and distinguish and diagnose common clinical conditions affecting the anterior chamber	RS:CONSOLIDATION PNEUMONIA IM3.4-3.6	SU28.2 Elicit, document and present.Demonstrate the correct technique to examine the patient with hernia and identify different types of hernias.	history taking ,clinical examination ,investigations in a case of AUB OG24.1	Diarrheal diseases, history, assessment dehydration MNCI guideline 24.9, 24.10, 24.11	Poly arthritis	Psychiatric disorders of elderly (PS 16.2)	Special Procedures and Patient Preparation (RD 1.11)	Describe the distinguishing features between a nevus and melanoma PA 34.3			
	9	Assessment and management of an overweight/obese individual (CM 8.2) CSC- dengue fever (CM 8.2,8.3)	Elicit document and present a correct history demonstrate and describe the clinical features, choose the correct investigations and describe the principles of management of Hearing loss(EN4.12)	OP6.10	Counsel patients with conditions of the iris and anterior chamber about their diagnosis, therapy and prognosis in an empathetic manner in a simulated environment	RS: Pleural effusion	SU28.9 Elicit, document and present. Demonstrate the correct technique of examination of a patient with disorders of the stomach	history taking , clinical examination, differential diagnosis and investigations in a case of Fibroid uterus OG29.1	CVS examination(Part 1) 23.10	SKILL SET 2-POP APPLICATION LOWER LIMB	Psychiatric disorders in children (PS 14.2, 15.3)	Reading Abdominal X-ray, Abdominal USG and Abdominal CT (RD 1.5, RD 1.6)	Identify and describe common skin tumors. PA 34.4			
	10	CSC- diarrhoea(CM 8.1,8.3)	Observe and describe the indications for and steps involved in the performance of pure tone audiometry(EN4.16)	OP7.3	Demonstrate the correct technique of ocular examination in a patient with a cataract	RS:Fibrosis	SU30.5 Elicit, document and present.Demonstrate the correct technique to examine the patient with Hydrocoele	Skill Lab - Enumerate the indications for, describe the steps in and insert and remove an intrauterine device in a simulated environment (OG 19.4)	CVS examination(Part 2) 23.10	Evaluating a Bony deformity	Somatiform disorder & Psychosomatic disorders (PS 10.2, 12.2)	Reading Chest X-ray and CT Thorax (RD 1.5, RD 1.6)	Enumerate describe and identify lepra reactions DR 9.4			
	11	CSC- PN mother(CM 10.2,10.3,10.6)	Enumerate the indications and interpret the results of an audiogram(EN4.17)	OP7.6	Administer informed consent and counsel patients for cataract surgery in a simulated environment	RS:Bronchial Asthma /COPD	SU28.18 Elicit, document and present.Demonstrate clinical examination of abdomen. Order relevant investigations. Describe and discuss appropriate treatment plan	history taking, differential diagnosis and investigations and treatment of case of vaginal discharge OG22.1,22.2	LRI history, examination 28.18(Part 1) Asthma-history,examination, 28.19, ,31.6	Evidence Based Practice in Diagnosis and Treatment of Low Back Pain	Psychosexual disorders & personality disorders (PS 11.2, 13.2)	Reading Skeletal X-ray (RD 1.10)	Enumerate and identify cutaneous findings of vitamin A deficiency DR 17.1			
	12	Record writing	Describe the clinical features, investigations and principles of management of DNS (EN4.23)		OP3.6,OP6.6, OP6.10, OP7.3, OP7.6 - Evaluation of pterygium, Corneal laceria, Anterior chamber depth, Pupil reactions	ABDOMNE: SYSTEM EXAMINATION , DIFFERENTIAL DIAGNOSIS IM 5.9-IM 5.10	SU27.7 Elicit, document and present.Demonstrate the correct technique to examine the patient with Varicose veins	history taking ,clinical examination , differential diagnosis and investigations of a Mass PA case OG34.2, 29.1	PE23.18 Demonstrate empathy while dealing with children with cardiac diseases in every patient encounter	END OF POSTINGS ASSESSMENT	Assessment		Assessment			
3	13	CSC- Antenatal mother with anemia (CM 10.2,10.3,10.6)	Enumerate the indications observe and describe the septoplasty (EN4.24)	OP7.5	To participate in the team for cataract surgery	Abdomen: Decompensated liver disease IM5.11-5.14	SU21.1 Elicit, document and present.Demonstrate the correct technique to examine the patient with disorders of salivary glands	GDM-History, clinical examination & investigations in obs. OG 12.3	LRI history, examination 28.18(Part 2) Asthma-history,examination, 28.19, ,31.6	Trauma						
	14	Nutritional Assessment and counseling of an adolescent (CM 10.8)	Elicit document and present a correct history, demonstrate and describe the clinical features, choose the correct investigations and describe the principles of management of squamous type of Nasal Polyps (EN4.25)	OP2.2	Demonstrate the symptoms & clinical signs in ophthalmology in OP2.1 Enumerate the causes, describe and discuss the aetiology, clinical presentations and diagnostic features of common conditions of the lid and adnexa including Hordeolum externum/ internum, blepharitis, preseptal cellulitis, dacryocystitis, hemangioma, dermoid.	Abdomen: Decompensated liver disease with complications (Portal hypertension, Hepatic encephalopathy) IM 5.11-5.14	SU20.1 Elicit, document and present.Demonstrate the correct technique to examine the patient with oropharyngeal cancer	Heart disease in preg - History, clinical examination & investigations. OG12.4	Observe the various methods of administering Oxygen 27.10							
	15	CSC- TB (CM 8.2,8.3)	Skills lab ; EN2.13 Identify, resuscitate and manage patient with foreign bodies in ear, nose in a simulated environment	OP2.3	Demonstrate under supervision clinical procedures performed in the lid including: bells phenomenon, assessment of entropion/ ectropion, perform the regurgitation test of lacrimal sac. massage technique in cong. dacryocystitis, and trichiatric cilia removal by epilation	Abdomen : Decompensated liver disease with complications (GI Bleed / SBP) IM9.3-9.6		Infertility - History, Clinical examination & investigations in gyn. OG 28.1	GI and Liver History/ Examination and symptom analysis(Part 1) 26.5, 26.6							
	16	Reflection and record writing	Elicit document and present a correct history, demonstrate and describe the clinical features, choose the correct investigations and describe the principles of management of squamous type of Allergic Rhinitis (EN4.27)	OP8.3	Demonstrate the correct technique of a fundus examination and describe and distinguish the fundoscopic features in a normal condition and in conditions causing an abnormal retinal exam	CNS:System examination, Differential Diagnosis	SU28.10,SU28.12,SU28.14 Elicit, document and present.Demonstrate the correct technique to examine the patient with Liver, biliary and Small and large intestine disorders	Skill Lab - Demonstrate the correct technique to perform and suture episiotomes in a simulated/supervised environment (OG 35.14)	GI and Liver History/ Examination and symptom analysis(Part2) 26.5, 26.6							
	17	Formative assessment- viva	Elicit document and present a correct history, demonstrate and describe the clinical features, choose the correct investigations and describe the principles of management of squamous type of Vasomotor Rhinitis (EN4.28)	OP4.8	Demonstrate technique of removal of foreign body in the cornea in a simulated environment	CNS: Anterior circulation stroke 18.3-18.6, 19.3-19.6	SU28.4, SU29.6 Elicit, document and present.Demonstrate the correct technique to examine the patient with Retroperitoneal tumors / Renal tumours	Rh negative - History, clinical examination & investigations. OG 12.8	CNS -examination (Part 1)and symptom analysis 30.18,30.19							

18-e-Clinical posting day wise for each clinical dept posting for Monday to Saturday during the specified weeks of posting as per GMER including student doctor method of learning

Weeks	SL	CM	ENT	Ophthal	Medicine	Surgery	OBG	Pediatrics	Ortho	Psychiatry	Radiology	Dermat	Anaesthesia	Dental
	18	3rd Saturday- holiday	Elicit, document and present a correct history, demonstrate and describe the clinical features, choose the correct investigations and describe the principles of management of squamous type of Acute & Chronic Rhinitis (EN4.29)	OP7.5, OP2.2, OP2.3, OP8.3, OP4.8 - Cataract Evaluation, Normal Fundus in a skill lab/ simulated environment	CNS: Anterior circulation stroke 18.3-18.6, 19.3-19.6	SU28.2 Elicit, document and present, Demonstrate the correct technique to examine the patient with hernia and identify different types of hernias.	Postmenopausal bleeding - History, Clinical examination, & investigations in gyn. OG32.2	respecting privacy and confidentiality of a patient 6.9,6.8(AETCOM)						
4	19	Introduction to Community Survey and Community diagnosis (CM 17.2) Explanation to the students about 'Community Survey forms' Social aspects in community survey	Skills lab : EN2.14 Demonstrate the correct technique to instilling topical medications into the ear, nose and throat in a simulated environment	OP9.1 Demonstrate the correct technique to examine extra ocular movements (Unioocular & Binocular)	CNS: Posterior circulation stroke 19.3-19.6	SU30.1 Elicit, document and present, Demonstrate the correct technique to examine the patient with Carcinoma penis	APH -- History, clinical examination, differential diagnosis & investigations. OG 10.1	CNS -,examination (Part 2)30.18,30.19	PMR					
	20	Visit to Village – Community Survey & Medical camp	Skills lab : EN2.12 Counsel and administer informed consent to patients and their families in a simulated environment	OP3.8 Demonstrate correct technique of removal of foreign body from the eye in a simulated environment	CNS: Cranial nerve disorders 18.7	SU27.7 Elicit, document and present, Demonstrate the correct technique to examine the patient with Varicose veins	Ca cx -History, Clinical examination & investigations in gyn. OG 33.1	Haematology-history,examination 29.10,29.11						
	21	Reflections of field visit by students: Explanation to the students – 'How to analyse the survey data using Microsoft excel (CM 7.5)	Record writing	OP4.10 Counsel patients and family about eye donation in a simulated environment/ watch enucleation	CNS: Cranial nerve disorders im18.7	SU25.5 Elicit, document and present, Demonstrate the correct technique to palpate the breast for breast swelling in a mannequin or equivalent	history taking and clinical examination of Multiple pregnancy OG11.1	Genitourinary tract history- markers of kidney disease 21.8, 21.9						
	22	Analysis by the students – Guidance for Preparation for Presentation	Assessment	Theory	CNS: Headache and seizures. im 17.2- 17.5	SU5.2(Revision) Elicit, document and present a history in a patient presenting with wound	Skill Lab - Demonstrate the correct technique of urinary catheterisation in a simulated/ supervised environment (OG 35.17)	Downs syndrome, karyotyping, turners and kienfelters 32.2,32.3,32.12,32.13,32.7,32.8						
	23	Assessment: Student Presentation: Community survey & Diagnosis	Revision/Remedial	Summative- Clinical examination and log book assessment	End of posting assessment	SU18.3 (Revision) Elicit, document and present, Demonstrate the clinical examination of surgical patient including swelling and order relevant investigation for diagnosis. Describe and discuss appropriate treatment plan	history taking, clinical examination of vaginal Prolapse OG31.1	Immunization administration in mannequin, practice IC measures- Skill lab 19.13,19.14						
	24	Record writing	Feedback	OP9.1, OP3.8, OP4.10 - Extra ocular movements in a skill lab/ simulated environment	End of posting assessment	END OF POSTINGS	CPD - History, clinical examination & investigations. OG14.4	Counsel parents of syndrome regarding 1. Present child 2. Risk in the next pregnancy(AETCOM)						
5	25	Introduction to epidemiological data and their analysis Descriptive epidemiology: Measurements of Morbidity (Prevalence and Incidence) and Mortality Incidence rate (CM 7.4)												
	26	Measles: Measurements of Morbidity (Attack rate, Secondary Attack Rate) Standardized Mortality Rate (CM 7.4)												
	27	Analytical epidemiology: Cohort study & Case Control study Experimental epidemiology: Clinical trial - Efficacy of a vaccine (CM7.4)												
	28	Demographic exercises: CBR, CDR, Growth Rate, Sex Ratio etc. Demographic exercises: Fertility rates (CM 7.4)												
	29	MCH indicators: MMR, IMR, PMR etc (CM 7.4)												
	30	Assessment: Practical Test in the above topics in the form of 3 exercise in above topics												
6	31	Introduction to health care of the community and primary health care (CM 17.1)												
	32	Visit to PHC (CM 17.3)												
	33	Visit to Sub centre (CM 17.3)												
	34	Visit to ICDS centre (CM 5.6)
